

Travel and Tourism Flying Start

Read the definitions below and describe a named attraction for each type, firstly for Brighton then for somewhere else in the UK. Imagine I have never heard of any of them so you need to research and describe what they are and what I can do there. Include pictures and tell me where it is

Visitor Attractions

**A Natural attraction** is an attraction that has been created by nature. There are attractions such as caves, waterfalls, seashores and any other scenic view interest that haven't been created by mankind.

**A Heritage attraction** - attractions that are old and have been in place for many years and are now historical. These are attractions such as castles, churches, canals, steam railways, battlefields.

**A purpose-built attraction** - attractions that have been built purposely to attract tourist into that area. Examples would be theme parks, towers, rides

**Events** are also attractions that bring in lots of tourists to the area. They can be sporting events, festivals, linked to an historical anniversary or shows.
