

January 2023

Dear Student and Parent / Guardian (s),

Firstly, I hope you and your loved ones are well and have enjoyed a restful break. Secondly, I am pleased to be able to relay that the GCSE results for the GCSE Maths and GCSE English results will be released on January 12th at 9.00.

Accessing Results:

Students will have received information about accessing their results in Tutor periods. This involves logging on to My Varndean, clicking the Learning Tab and then Exam Results.

Attendance at GCSE English / Maths Lessons following results:

If students have been successful in obtaining their grade 4 in GCSE English or Maths they are no longer required to attend this lesson.

Level 2 Students who have passed their GCSE re-sit exams will have their programme reviewed. This is to ensure that students have access to a full programme of study and meet the required hours for full - time students within education. This may mean students are enrolled upon a further qualification. This will be a positive opportunity to gain another qualification and further develop skills and understanding in a range of subject areas. Timetables will be updated as of 23.01.23 and students should be advised to check their timetables via My Varndean to review their enrollments. Students will be expected to attend their new course as of 23.01.23.

If students have not yet been successful in obtaining their grade 4 in GCSE English or Maths they are required to attend GCSE English / Maths lessons taking place in the afternoon of January 12th and consistently from this point.

Finally, I am sure that every learner who sat their GCSE Maths and English took every opportunity to prepare and perform effectively in the exam. With this in mind, results can be disappointing for students and they may wish to access support. Students are invited to speak to myself or the Assistant Head of School, Helen Chong, on Thursday from 08.30 - 10.00 in either room 12 or 7.5.

Yours Sincerely,

George Marshall
Director of Student Engagement / Head of Level 2
